The City of Greater Sudbury

Greater Sudbury is the largest city north of the Greater Toronto Area. Long recognized for its world class mining industry which today still sustains more than 16,000 mining-related jobs, the city has expanded to become a regional hub for medicine, government, finance and business services. It has also become a global draw for retail, tourism, education, and innovation and research in the fields of environmental restoration, healthcare, astrophysics, mineral exploration and mining technology.

The ideal place for your studies in Canada

The City of Greater Sudbury offers the unique advantages of a metropolitan city while remaining a truly tight-knit community. Combined with its enviable natural setting of freshwater lakes and boreal forests, it offers outstanding quality of life.

Greater Sudbury is one of the greenest cities in Canada and as such, the great outdoors beckon. Expansive lakes and waterways, lush forests and varied terrain, a comprehensive network of groomed hiking, skiing, biking and snowmobiling trails, and nine provincial parks within a 90-minute drive await our students.

Beyond the busy life on campus, you'll find plenty to do and enjoy in your host city. From festivals, outdoor recreation and sports, to live theatre, museums, shopping, dining, and socializing, it's all within easy reach. Greater Sudbury has efficient and economical public transit and is relatively easy to navigate by car, by bike or on foot.

Greater Sudbury is a multicultural and truly bilingual community. Over 25% of people living in the city list French as their first language, with 39% identifying as bilingual. Italian, Finnish, German, Ukrainian and Polish are the top five non official languages spoken here after English and French. **For more information on your host city, consult discoversudbury.ca.**
